

MRS

2000+

Magnetic Resonance Stimulation Technology

NO MAGNETS

The most sold MRS System in the WORLD!

((THE ELECTRO-MAGNETIZING WAY TO STAY HEALTHY))

MRS 2000+ (**magnetic-resonance-stimulation**) system helps restore lost energy and crippled cellular resonance to a normal, healthy state of vibration. As a result, the entire cell metabolism is stimulated, blood cells are regenerated, blood supply moves more freely and with more oxygen, immune system is strengthened, vitamins and minerals are better absorbed, the respiratory system becomes more efficient, the nervous system relaxes, bone structure becomes more dense and organs -such as liver, kidneys, and spleen- are able to detoxify, ridding themselves of impurities and regaining their designated bodily functions.

► **HEALTHY PEOPLE**- MRS 2000+ acts on the regulation of the metabolism (cell membrane potential). Influenced by pulsating magnetic fields, red blood cells deliver up to 200% more oxygen to every single cell. Sufficient oxygen supply promotes improved nutrient conversion in the cell as well as refinement of the waste products that are excreted by the cell more easily. **Optimal oxygen supply facilitates a properly functioning immune system.**

PAD applicator

► **ATHLETIC PEOPLE** - MRS 2000+ increases the regeneration process and boosts performance. The MRS 2000+ is used in Europe in rehabilitation clinics, in competitive and noncompetitive sports, and is also used by private individuals. Improves physical and mental performance and endurance and speeds up healing processes including fractures. This system is used by numerous athletes during training periods and before competitions. An eight minute usage prior to any sporting event or training session elevates the blood oxygen level up to 200 % and **provides all cells with maximum oxygen and nutrition.**

PROBE applicator

► **ILL or INJURED PEOPLE** - MRS 2000+ does not work on symptoms, but on the cause by activating the natural self-healing process (pulsating magnetic fields deflate the sympathetic nervous system and increase its threshold). Basically, MRS 2000+ system activates every cell in the body supporting cellular regeneration. Every cell in the body is affected simultaneously (key-keyhole principle). The absence of side effects ensures compatibility with homeopathics, supplements, drugs, and chemotherapy treatments.

Whole-body Mat

EVIDENCE OF THE EFFECTS OF MRS:

- Dark Field Microscopy
- X-ray
- Electro Interstitial Scanner (EIS)
- Infrared -Thermography

In contrast to other electromagnetic systems, the effectiveness and compatibility of MRS 2000+ are greatly optimized through three important and effective components:

1. Pulsating Magnetic Induction
2. Bundles of Frequency
3. Resonance Effect

“Electromagnetic energy is the elemental energy on which all life and organisms depend.”

Prof. Dr. Werner Heisenberg, German Physicist, Recipient of the Nobel Prize

Research conducted over previous years for pulsed electromagnetic field therapy indicates that varied improvements in **neurological**, **physiological** and **psychological** actions have been achieved with no adverse reactions.

Research indicates that Pulsed Electromagnetic Fields:

- ⚡ Improve circulation and the delivery of oxygen to the brain, vital organs, and virtually every cell of our body.
- ⚡ Stimulate ATP production to provide more energy for the cells. ATP is estimated to provide 95% of all cellular energy throughout the body.
- ⚡ Enhance strength, stamina, flexibility, concentration, and recovery in athletic individuals.
- ⚡ Regenerate the body's cells- Promoting faster healing of strained muscles and sprained ligaments
- ⚡ Accelerate the healing of post-operative healing of tissues, scars, etc.
- ⚡ Enhance the healing of muscle injuries from strains, sprains, tendonitis and bursitis.
- ⚡ Improve regeneration & speed recovery from physical exertion, strenuous workouts, etc.
- ⚡ Promote pain reduction resulting from various causes - arthritis, back pain, bursitis, muscle stress, etc.
- ⚡ Improve blood circulation and micro-circulation - reduce blood platelet adhesion (stickiness).
- ⚡ Strengthen bone structure - a measurable increase in bone density with daily use.
- ⚡ Regulate high and low blood pressure - stimulating natural release of Nitric Oxide to relax and expand blood vessels.
- ⚡ Balance the body's acupuncture meridians in just eight minutes.
- ⚡ Promote nerve regeneration: Damaged cells can be stimulated to regenerate by suitable pulses from a magnetic field. Magnetic fields here cause a type of electric current pulse, which stimulates the nerve cells to “grow”.
- ⚡ Provide a “CALMING” effect on the nervous system to relieve stress and aid relaxation.
- ⚡ Support normalization of heart rate: Tests have shown that the heart rate can be influenced in a positive sense through the regulatory effect of a magnetic field on the autonomic nervous system.
- ⚡ Revitalize the immune system.
- ⚡ Reduce the damaging effect of “electro-smog”. The low pulsating electromagnetic field intensity induced by the MRS 2000, interferes with “electromagnetic smog” by reversing their polluting effect.
- ⚡ Generally have no adverse reactions other than providing a body restorative cleansing affect on your health.
- ⚡ Deepen restful sleep by increasing circulation throughout the body which creates an overall feeling of relaxation and improves melatonin production.
- ⚡ Help relieve pain by stimulating the body to produce increased amounts of natural pain inhibitors.
- ⚡ Improve metabolism and improve circulation, so medication can reach targeted cells more easily.

The MRS 2000+ is:

- ⚡ German engineered to the highest of standards, and easily administered with a line of accessories.
- ⚡ Backed by years of scientific research - *scientific evidence about safety and effectiveness.*
- ⚡ WHolistic in its approach to health and well-being, right in your home, with safe, long-lasting beneficial results.
- ⚡ **Backed by a THREE YEAR WARRANTY**

Optional MRS 2000+ Accessory:

SLRS - Sound & Light Relax System

A device designed to balance energy; help with relaxation, sleep, stress and depression; improve concentration, learning ability, and memory.
